## THE RAINFALL.

**Signal Service Figures Showing the Extent this Year.**

SAN FRANCISCO, March 1.—The Signal Service issued a table to-day showing the rainfall for February and the seasonal rainfall to February 28th of the present year. This shows that in the Sacramento valley up to to-day it is nearly equal to the average rainfall up to that date in previous years. In San Joaquin the rainfall for the season is about two-thirds of the average for the previous years. Up to same date, south of Mojave, the rainfall for the season up to March 1st is equal to the previous year's fall up to the same time. Lieutenant Maxfield, in charge of the Signal Service division of the Pacific, in his special bulletin for February, says the rainfall for the month has been in excess of the normal rainfall south of the line drawn from west to east through Coalinga, Oregan and below normal north of that line. The most marked departures from normal are as follows: Above normal—Roseburg 1.5 inches, Red Bluff 5 inches, San Francisco 5.8 inches, Los Angeles 5.1 inches, San Diego 2 inches.

The Senate bill appropriating \$10,000 for the immediate use of the State Board of Health, to prevent the spread and introduction of contagious and infectious diseases in this State, was decided as a case of urgency, read the first, second and third times and passed. It was stated that the Board has no means to stop the smallpox which has broken out in Los Angeles.

Lawrence's motion to reconsider Brooks' Pilot bill was voted down. Henry, of Butte, moved to reconsider the vote by which the Senate bill to establish a normal school in the northern part of the State was refused a first reading. The motion prevailed and the bill was read. A resolution by Matthews, of Tehama, concerning the adjournment sine die, was made the special order for Saturday.

**The Ryland-Conklin Contest.**  
SACRAMENTO, March 1.—In the Senate to-morrow the Committee on Elections will submit two reports on the Ryland-Conklin contest for a seat in the Thirty-second Senatorial District.

The majority report states: "From the law applicable to the evidence and the facts presented, we are of opinion that Mr. Ryland is entitled to a decision in his favor, and we therefore declare him duly elected." The minority report is based on the ground that the contestant had no majority of votes at the late election.

## BROOKS' CHANCES.

## A Damaging Letter From Judge Sawyer Proves a Drawback.

WASHINGTON, March 1.—The Senate Judiciary Committee considered the nomination of J. Marion Brooks to be District Attorney for the Southern District of California yesterday. The committee, after discussing the case for some time, decided to take no action at present, and the general impression is that the nomination will not be acted upon this session. In that event Brooks will have to be reappointed by the President to secure the office. The thing that did Brooks the most injury before the committee was a letter written by Judge Sawyer, who, after a visit to Southern California, reported that from conversations he had with leading citizens he believed that Brooks was not a lawyer of ability and that he ought not to be confirmed.

Senator Stanford and Representative Fenton warmly opposed Brooks' case, and felt confident that if his nomination is not acted upon this session the President will renominate him.

## HOUSE OF COMMONS.

## A Debate Concerning the Rules of Closure.

LONDON, March 1.—In the debate on the rules of procedure in the House of Commons this evening, Mr. Malloy on behalf of Mr. Parnell moved an amendment that the closure should not be applied until the subject under discussion had been debated. Mr. Smith opposed the motion, saying that the Government intended to propose an amendment of a similar nature. Parnell complained that the Irish were unfairly treated, and he attributed the Government's action to the influence of Mr. Goschen. Mr. Healy objected to confining in a Speaker, in whose election the Parnellites now vote. Mr. Gladstone supported Mr. Malloy's amendment. The amendment was rejected by a vote of 241 to 186. The announcement of the vote was received with loud opposition cheers. Messrs. Gladstone, Childers, Harcourt, Morley and other Liberals, voted with the Parnellites. Mr. Parnell moved an amendment, the effect of which would be to prevent the application of the closure directly after the moving of the amendment. Mr. Smith objected to such a motion. The amendment was rejected by a vote of 302 to 113. Mr. Smith gave notice that to-morrow the Government would give an agreement to the effect that "any member may move to apply the closure, and unless it shall appear to the Speaker that the motion is an abuse of the rules of the House or an infringement of the rights of the minority the question shall be put forthwith. Mr. Parnell, on the ground that members were not given sufficient time to consider this entirely new proposal, moved that the introduction of the amendment be postponed till Friday. Sir William Vernon Harcourt supported the motion but it was rejected by 243 to 110.

## George Hearst on the Silver Question.

## STRIKING MILWAUKEE TYPOS.

A Possibility that No Extra Session of Congress May be Necessary.

Associated Press Dispatches to the HERALD.  
CHICAGO, March 1.—United States Senator-elect George Hearst, of California, who arrived here to-day, left this evening for Washington to be sworn in. He says he will be in the Senate to effect some changes on the currency denomination. He wants gold coin to be issued in denominations not less than the \$20 piece, so that all great moneyed transactions can be made with gold. He wants silver to be made to fill the medium of "small change." To do this he desires that silver certificates be issued in denominations of \$5 and \$10 notes and lower, and have certificate dollars take the place of the silver dollar. The silver dollar and silver certificates, he says, are a nuisance, as the silver half-dollar means the convenience of all. Cleveland, he claims, is to-day more of a silver man than when he first came to the Capital.

**Striking Printers.**  
MILWAUKEE, Wis., March 1.—At 1 o'clock this afternoon the compositors on all the newspapers and job offices in this city went out on a strike for an advance of five cents in the price of composition. Milwaukee, March 1.—The strike of printers which took place here to-day is the largest that ever occurred in this city. It includes all compositors employed on three English daily papers and all those in the job office with one exception. About 250 printers are out. The newspaper publishers have signed an agreement pledging themselves to stand by each other and by the new men they employ. They have made arrangements for a new force of men with the printers' Protective Fraternity and expect to have an adequate number before the close of the week. That organization admits to its membership all non-union men employed in printing offices. The result of the strike will probably be to break up for the present the Typographical Union here, which for years past has controlled most of the printing establishments of the city.

## THE EXTRA SESSION.

## Efforts of Members of Congress to Avoid It.

WASHINGTON, March 1.—At midnight Senator Allison, Chairman of the Senate Committee on Appropriations, who was still engaged with other conferees on the Sundry Civil bill, said to a reporter of the Associated Press that the prospect of getting through the necessary work on the appropriation bills and thus avoiding the necessity of a called session, amounted to quite a probability. The Naval bill would be taken up by the Senate to-morrow, and would be passed and sent to the conference during the day. The Legislative and Deficiency bills had this evening reached the Senate and the Committee on Appropriations by continuing work might get them before the Senate Wednesday night or Thursday night. The report on the Sundry Civil bill would probably be prepared before the Committee adjourned to-night. Notwithstanding, he added, it is in the power of any member of either House to delay matters as to make an extra session probable.

## Brewers Boycotted.

NEW YORK, March 1.—A boycott against the pool of brewers by the Retail Liquor-Dealers' Association went into effect to-day, and the retailers claim that the struggle has begun in a manner thoroughly gratifying to their side. Nearly all the retailers in the association except those who are heavily in debt to the brewers for fixtures in their saloons have joined the boycott, as well as many outside of the association. After to-day these places buy no more beer until they can buy where they please, independent of arrangements by the pool.

## Army and Navy Nominations.

Hals, from the Committee on Appropriations, reported lack the Naval Appropriation bill, with amendments. It was ordered printed and placed on the calendar.

On motion of Dawes, the House bill to grant the right of way through the Indian Territory to the Chicago, Kansas and Nebraska Railway was taken from the calendar and passed.

On motion of Platte, the House bill to annex a portion of Idaho to Washington Territory was taken from the calendar and passed, with amendments. A conference was asked on the amendments. The bill ascertaining and settling private land claims in New Mexico, Arizona and Colorado was taken up. After a long discussion the bill was amended so as to make it applicable to other States and Territories and was passed without a division. A conference was asked.

## THE HOUSE.

WASHINGTON, March 1.—In the House to-day the bill making appropriations for the payment of Mexican pensions was taken up and passed. It appropriates \$2,300,000 for the remainder of the fiscal year and \$4,000,000 for the next fiscal year.

Willis presented the conference report on the River and Harbor bill, and on demand of Anderson, of Kansas, the bill was read in extenso. The total of the bill as passed by the Senate was \$10,620,350, and as it comes from the conference was \$991,900, a big loss.

The conference report on the River and Harbor bill was agreed to—Ayes, 177; noes, 87.

Peel, of Arkansas, submitted a conference report on the Indian Appropriation bill, and it was agreed to.

Burns, of Missouri, moved to suspend the rules and pass the Deficiency Appropriation bill. Another hour was consumed in reading new measures. Cannon, of Illinois, said if the bill was passed in the ordinary way he would move to re-commit it. The bill appropriated about \$8,500,000, and in the main he concurred in its recommendations. It was conspicuous for what was not in it. It contained an appropriation of \$2,000,000 for services rendered by the Central Pacific Railroad Company over the two thousand miles of its leased line. The Supreme Court had held that that sum was due and payable by the government. He was not here to make a plea for the Central Pacific but only to call attention to the fact that notwithstanding the decision of the highest tribunal in the land, the Committee on Appropriations, exercising the sovereign power to repudiate the obligations of the government, had refused to make the appropriation.

Mr. Butler, in response to Cannon's criticism, said that as far as the obligations of the Government were concerned he would never vote to repudiate them, but he contended that while the Central Pacific owed the Government \$2,000,000, the Government owed the Central Pacific but only to call attention to the fact that notwithstanding the decision of the highest tribunal in the land, the Committee on Appropriations, exercising the sovereign power to repudiate the obligations of the government, had refused to make the appropriation.

Mr. Belmont of New York presented the conference report on the Fisheries Appropriation bill. The House passed the bill, under suspension of the rules.

## BULGARIA NOW NEUTRAL.

A Fearful Explosion in France Entombs over One Hundred Miners.

Associated Press Dispatches to the HERALD.

ROME, March 1.—The correspondent of the Associated Press is authorized to state that the American Bishops took a favorable view of the organization known in the United States as the Knights of Labor. Cardinal Gibbons has placed before the Vatican the formal statement as to the nature of the organization and of the attitude which the church should adopt towards it. The Cardinal says that nearly one-third of the men belonging to the organization are Roman Catholics. Respecting the charge that the association is a secret order the Cardinal says that it is not secret in the sense condemned by the church and that it ought consequently to be exempt from canonical censure. In Canada the case is different. Cardinal Gibbons further says that he considers the organization of the Knights of Labor in the United States not only as harmless, but possibly as beneficial in assisting in the eventual settlement of the great question of the proper relations between labor and capital.

**WILY BULGARIA.**  
Awaiting Events to Choose Her Partner.

BUCHAREST, March 1.—In official circles an attitude of the strictest neutrality is favored, whatever be the turn of events, but it is admitted that the Russian troops may cross the Pruth before the Roumanian Government receives warning. Armaments are being completed in readiness for mobilization. The Government has ordered large quantities of hospital and ambulance material. One thousand extra workmen are employed in the arsenal getting artillery and ammunition ready. A commission will start for England to-morrow to purchase torpedo boats.

## "Shovers of the Queen" Arrested by the Canadian Police.

NEW YORK, March 1.—A dispatch to the Evening Post from Montreal says: Dominion secret service detectives have at last succeeded in unearthing and arresting part of a dangerous gang of counterfeiters and their accomplices who for the last twelve months have been flooding the Dominion with counterfeit bills.

The persons arrested are Charles Bines, a sporting man, gambler and hotel-keeper, and Thomas Power, alias "The Kid," a notorious burglar, thief and American confidence-man.

The counterfeiters are engaged by an American gang in Western Canada, and are being "shoved" by Con Kearns, one of the most dangerous criminals of the United States. While engaged in circulating counterfeit bills during carnival week he also directed the jewelry burglaries which have been reported, and by which he and his pals cleared \$20,000. Kearns succeeded in eluding the officers, but important papers have been recovered by the detectives which will be instrumental in effecting the arrest of the remainder of the gang in Western Canada. It is estimated that at least \$500,000 in counterfeit has been passed by them.

## Oh, Wise Legislators!

The State Board of Health asks for an appropriation of \$20,000 to enable it to quarantine infectious diseases beyond the borders of California. The Legislature examines the demand with an eye of incredulous wisdom, and takes on a sudden burst of economy. It says \$5000 ought to be enough. But the friends of the Board, finding they may perhaps get nothing, split the difference and induce the Legislature to agree to \$10,000! What a commentary this is upon the statesmanship of the men who are biennially sent to Sacramento. Here is a small sum of money demanded for a public purpose of the most important and urgent character. It may save thousands of lives, and it certainly would save hundreds of thousands of dollars to the State. Yet these pseudo economists haggle at the price, and cut it down one half. One hour of epidemic disease in any city in California would damage the city more than double the trifling sum asked to exclude it positively from the whole State. One life lost, by the failure of the State to devote means to exclude infectious disease, is worth more than can be estimated in money. Yet the State, through her Legislature, invites death to assail thousands of families, by its parsimonious pretense at economy. If the State can exclude infection, as no one doubts it can, by devoting a reasonable amount of money to a competent Board of Health officers, and refuses to make the appropriation, every death ensuing from the introduction of foreign infection is a murder committed by the State. It is no less a murder because no responsibility can be brought home to the State; but every victim, with his last gasp and the last thought that passes through his burning brain, will know that he is paying with his life the recalcitrance of the men who are supposed to be placed in public position to protect life and not destroy it.

## Colton Not Scared.

The good people of Colton do not seem to be afraid of smallpox fifty-eight miles away, and to show that San Bernardino County shall have a citrus fair about Riverside that they will hold such a fair on or about the 12th instant at Colton, of which due notice will appear in the public press.

It is proper and just to state that the citrus fruit on Colton Terrace is unsurpassed for size, beauty and flavor, and those who attend this fair will see some of the finest fruit that grows.

Old San Bernardino, Longoria, Crafon and Redlands will also be represented by handsome exhibits, and Hermosa will doubtless send in some splendid fruits. Heretofore many persons thought that a citrus fair could not be made except at Riverside, but this exhibition will enlighten them amazingly and take the conceit out of those who thought that all the citrus fruit in that county grew in Riverside.

The new towns in that county are coming to the front amazingly in fruit culture, and are showing beautiful, thrifty orchards of magnificent fruit. Ontario, Cucamonga, and Etiwanda, will be able to make a good show of what they have accomplished in a few short years, and Highlands will doubtless have something to show. These Colton people are very and full of push, and accomplish what they undertake. The fair will be an unquestioned success.

The people of Los Angeles may be congratulated upon the fact that they are to have four nights devoted to the higher drama, with the foremost actor of the age as its chief exponent. Edwin Booth has achieved the most exalted reputation to which an actor can aspire. Endowed with that cast of mind which conceives and reproduces in their naturalness the deepest emotions of the human heart, and possessing all the graces of person that lend force and effect to the intellectual conception, he illustrates the ideals of the poets to a perfection which destroys illusion and incarnates reality. His Hamlet is one of the loftiest achievements of the histrionic art. It is not merely a study; it is an inspiration. As a contrast to the deep melancholy and eccentric philosophy of Denmark's Prince, his Richelieu presents one of the most intellectually grand and mature personations in the whole range of the drama. A Minister of tremendous power of mind, coupled with subtlety of thought and inventive resources almost without limit—meeting court intrigue and reigning weakness with a more refined intrigue and a dominating strength of will—saving France from her enemies and from herself—hurled vice to his feet and crushing it with his moral grandeur—rising higher and higher the more he is faced with difficulties—to faithfully interpret such a character and such a spirit is only given to the highest order of genius, and that genius belongs alone and peculiarly to Edwin Booth. We repeat, the people of Los Angeles are fortunate that they will be enabled to assist at the dramatic festival which begins to-morrow night, and at the same time they may be proud that he who thus "holds the mirror up to nature" started out on his majestic career as a California youth.

It is hardly probable that Chief Justice Morrison will recover from his present malady. For over two years his system has been shattered from a severe stroke of paralysis, and this last visitation seems to come with a shock too great for the vital force left by the other. The papers have freely spoken on the subject of his successor, and the name of Judge J. F. Sullivan has been discussed in this connection. A Los Angeles paper yesterday treated his probable nomination in a manner that was simply rancorous of bigotry and partisanship. Assuredly, no purer man or able Judge could be selected for the position of Chief Justice than Jeremiah F. Sullivan. It certainly will not weigh against him with Governor Bartlett in filling this vacancy, should it occur, that Judge Sullivan was defeated at the last general election by the wholesale use of money belonging to the estate of a millionaire, who had been treated by him the same as if he had been the poorest litigant that was ever haled into a court of justice.

This people of Los Angeles celebrated two local events yesterday of a most gratifying character. One was the formal opening of the magnificent home dedicated to dependent and deserving women. The other was the dedication of the splendid new asylum of the Cour de Lion Commandery of the Knights Templar. During the entire day and evening, the ladies whose sacrifices and efforts have culminated in the Women's Home, received and gracefully entertained a constant stream of visitors. In the evening the Knights threw their asylum open to social reception, which was grand, and rendered superlatively interesting by the dedicatory services of the Commandery. The scene changes, and the Knights and their guests, consisting of the flower of both sexes of Los Angeles, find themselves in Armory Hall, where a splendid banquet is followed by a magnificent ball. The details of these notable events will be found in our local columns. But the moral reaches abroad, and shows that our city is not only brimming over with business energy, but has time and means to institute homes for the helpless, and to enjoy itself with Parisian gaiety.

## LEGISLATIVE.

## The "Herald's" Letter from Sacramento.

Special Herald Correspondence.  
SACRAMENTO, February 27, 1887.  
The time of the twenty-seventh session of the Legislature is fast drawing to a close. Thus far there are no regrets expressed except by those who have been disappointed in their little pet measures. It is a fact that the members are determined to go home at the expiration of this week, unless some unforeseen circumstance takes place in the meantime to change their minds; but such an event is not at the present thought of. There has been more business transacted in the past two days than during the entire session. This is owing in a measure to the fact that in the Senate Senator White has occupied the chair most of the time and has kept the oratorical portion of the members within respect able bounds. That a great portion of valuable time has been wasted in long debate there can be no doubt, and the members of the Senate that have consumed so much of the time are now loath in their denunciation of wasting time in speech-making. This proves the fact. The debate on the Walrath Debris Dam bill was probably the hottest of the session. As has been stated heretofore in the HERALD, the amendment offered by Senator Clinch that "no dam shall be erected that will interfere with navigation if carried away in whole or in part by water," brought Senator Walrath to his feet and in his remarks said that he now saw that such amendments meant to kill his bill. The Senator almost lost control of himself, and had him been for the timely interference of some of the friends of the bill, the result would possibly have been a personal encounter between Walrath and Clinch, but the matter having been explained to his satisfaction, he contented himself by taking the thing as coolly as possible.

The amendment was lost, however, by a vote of 18 yeas to 22 nays. It was a signal victory for a moment before was in an excited condition of mind, became placid and self-contained.

The amendment offered by White, that no dam erected in such a manner as to endanger or materially affect the navigation of the river, was adopted by the Senate, was accepted by the friends of the bill. A dispute arose as to agreeing upon an amendment to be offered by Clinch, when it was decided to refer the bill to a committee of four, including Caminetti for the miners, and Chandler for the valley men, or farmers.

This being done, other bills were considered, and Senator Brisland's bill, appropriating \$10,000 to prevent the introduction of infectious disease, was passed. Loggia bill, appropriating \$100,000 for the purchase of jute machinery and the manufacture of jute goods at San Quentin was passed. The Appropriation bill was received from the Assembly and referred to the Finance Committee. The committee appointed to consider the Belmont Dam bill reported it back, and the bill was redrafted and passed. The bill was read a third time. This closed the business for the night and Walrath feels happy.

The Smith investigation has drawn to a close. What the result of the committee will be only conjecture. It is said that all sides that, whatever the report may be, some good will come out of it. It has been the means so far of putting a stop to the members of the Legislature going around the lobby and doing, as is generally termed here, their own brokerage business openly.

The Los Angeles delegation is still here and attending to the bill for the benefit of cities of 10,000 population and over. They are very anxious to get through with their business and return to their homes. Senator Clinch, who yesterday, he said he was very tired of Sacramento.

A resolution offered by Shanahan in the Assembly yesterday morning has created quite a stir in political circles. The resolution is very elaborate, and the preamble arranges the management of the State prisons in continuing, in spite of the Constitution, to farm out the labor of the prisoners to contractors who manufacture furniture and doors and sashes, and continues as follows: "And, whereas, there are no obtainable itemized expenditures of the Board of Directors, though they receive an average of \$100 or upward per month for personal expenses, and draw the same from the warren of the prison; and, whereas, one of the Prison Directors has procured a vacation from the State, and is very actively interested in legislation relating to the prisons; and another of the Prison Directors is Secretary of State and a member of the State Board of Examiners at the same time, and another of the Prison Directors is Secretary of a Penological Commission, receiving a salary therefor; and, where, as, Prison Directors have been engaged with prison contractors actively lobbying during the present session of the Legislature in reference to proposed legislation affecting the prison; and, whereas, at a meeting at San Quentin of the Prison Directors, during the year 1886, one of the Directors protested against the continued practice of approving without examination accounts aggregating from \$60,000 to \$70,000 per quarter. Therefore, be it resolved by the Assembly, that a special committee of five be at once appointed by the speaker to investigate the present State Prison management and report to this Assembly in regard to the same before its final adjournment; that said committee be empowered to administer oaths, subpoena all necessary witnesses and to compel the submission of all necessary papers to said committee."

The Constitutional amendment introduced by Knox, and of which Senator White is the author, will be introduced in the Senate to-morrow, with a few slight amendments.

The Appropriation bill will possibly be taken up out of its order in the Senate to-morrow and amended very materially. There are a large number of items that the Senate will refuse to pass in and near this family resort, incident to the coming of the railroads. The best of material mineral resources of the State, in the form of oil, gas, and coal, are being wasted.

THE WOMAN'S HOME.

The First Reception in the New Quarters.

THE FLOWER FESTIVAL.

Work Done in the Past and Expectations for the Future.

List of Officers.

The formal dedication of the Woman's Home, which has been built by the Flower Festival Society, took place yesterday at the new building on Fourth street, near Main. Some two years ago a number of ladies, realizing the necessity for such a Home, banded themselves together for the purpose of raising funds to carry out their object. The immediate result of the organization was the establishment of the annual flower festival, which is destined to become a feature of this city, as important as the "Carnival" at Montreal or the "Mardi Gras" at New Orleans. The first officers of the society were: Mrs. R. M. Widney, President; Mrs. M. Kremer, Mrs. E. A. Shepherd, Mrs. Dr. Bird, Vice-President; Miss M. E. McLellan, Financial Secretary; Miss Fannie Sawyer, Recording Secretary; Mrs. Earl B. Miller, Treasurer.

At the time of the first festival the following were the members: Mrs. H. H. Boyce, Mrs. E. T. Wright, Mrs. A. A. Gibson, Mrs. J. S. Chapman, Mrs. A. S. Robbins, Mrs. S. Lazar, Mrs. M. Gardner, Mrs. Jennie Sanderson.

THE FIRST FESTIVAL.

It was decided to give the first festival in April, 1885, and in that month the largest flower collection seen in this city was seen at the Nadeau Hall. Its success far exceeded the hopes of its projectors, and it was decided to proceed with the good work. About \$2500 was netted from this festival, and of this \$1000 was paid on the lot occupied by the Home, and the balance was used in renting a house for the shelter of homeless girls. In November, 1885, a "loan exhibit" was made by the society, but the result was not so encouraging, for it raised almost the whole time the exhibition was held. Five hundred dollars were cleared, however, and through the gift of \$500 from Mrs. Hollenbeck, the remaining \$1000 was paid on the lot. At this exhibition seventy-two engravings and sketches were loaned by H. H. Boyce, by H. T. Lee and by Frank N. Rust, Mrs. C. M. Severance, Miss Harold, Dr. W. W. Ross, Earl B. Miller, Mrs. M. A. Graham, A. H. Judson, Dr. Dorothea Lummis and Frank Van Trees. In the American department there were eighty-six curios loaned by Mrs. E. Richardson, Mrs. I. E. Dunkelberger, Mrs. J. C. Newton, Mrs. J. M. Stewart, Mrs. C. W. Lawrence, Mrs. T. S. Stawley, Mrs. Slosson, Mrs. S. A. Barclay, Mrs. Foster, Mrs. N. W. Stowell, Mrs. E. J. Bickel, Mrs. M. A. Siskaway, Mrs. Tanzy, Mrs. Boutwell, Mrs. C. Ducommun, Mrs. F. C. Howes, Major Haverstick, Mrs. H. H. Boyce, Mrs. Severance, Frank Howard, Miss Hladley, G. H. Paine, Mrs. E. H. Gibbs, Mrs. F. Q. Storey and Mrs. Dorothea Lummis. Besides these there were a Chinese department, with eighty-three articles; a European department, with fifty-three relics; an Indian department, with ninety-four curios; an island department, with seventy-four specimens; a Spanish California department, with 100 articles; an exhibit from India of forty-two articles; a Persian exhibit of thirty-seven pieces, a collection of coins, African curiosities and a number of other interesting articles.

The second set of officers were as follows: Mrs. R. M. Widney, President; Mrs. F. C. Howes, Mrs. H. H. Boyce, Mrs. W. H. Herriott, Vice-Presidents; Miss M. E. McLellan, Financial Secretary; Mrs. W. B. Abernethy, Recording Secretary; Mrs. Earl B. Miller, Treasurer. Managers—Mrs. C. E. Day, Mrs. M. Hagan, Mrs. Chas. Prager, Mrs. C. P. Brown, Mrs. J. M. Stewart, Miss M. H. Wooster, Mrs. J. C. Newton, Mrs. E. H. Hollenbeck.

Advisory Committee—Mrs. C. M. Severance, President of the Woman's Club; Mrs. M. A. Gibson, President of the Orphans' Home Society; Mrs. Ira Moore, President of the W. C. T. U.; Mrs. John Milner, President of the German Ladies' Benevolent Society; Mrs. C. Ducommun, President of the Ladies' Benevolent Society; Mrs. L. F. Gay, President of the Ladies' Auxiliary of Y. M. C. A.; Miss Florence Dunham, President of the Young Woman's C. T. U.

THE SECOND FESTIVAL.

The second flower festival held in March last year netted \$4000, with which the present building was completed by the aid of borrowed money. The unparalleled success of the exhibition of 1886 gave the ladies every encouragement for their work this year. It would be impossible to give any idea of the beauty of such an exhibition, but a few items may be interesting as showing the profusion of flowers that gardens in this climate can furnish.

The representation of the Old Mission Church of San Gabriel, nine feet in length, was wholly in flowers. The walls were of white Marguerites, closely packed; the roof of double red geraniums, relieved with gray moss; the floor of wild flowers in great variety, and all of these were renewed from day to day as they faded.

lado four feet in height, a mass of calla bloom against a background of calla green. Between the platform and floor of the hall was an incense many yards in length, formed of closely laid roses of all shades, fascinating to the eye and puzzling to the powers of calculation. It was estimated that there were in the hall during the show 50,000 callas and at least 400,000 roses from the gardens of Los Angeles and vicinity. A barrel of flowers sent from a single private garden in Santa Ana, contained 250 blossoms of one kind; also, from Santa Ana, on one day, 1500 roses were sent. The officers for the present year are: Mrs. R. M. Widney, President; Mrs. W. B. Abernethy, First Vice-President; Mrs. F. C. Howes, Second Vice-President; Mrs. M. Hagan, Third Vice-President; Mrs. W. B. Abernethy, Financial Secretary; Mrs. M. E. McLellan, Recording Secretary; Mrs. H. L. Macdonald, Treasurer; Managers—Mrs. A. S. Averill, Mrs. Hollenbeck, Mrs. Chas. Prager, Miss M. E. McLellan, Mrs. C. E. Day, Mrs. W. W. Widney, Mrs. R. D. P. Widney, Mrs. Sam'l Minor, Mrs. J. M. Stewart, Mrs. E. P. Johnson, Mrs. J. C. Newton, Mrs. W. F. Marshall and Mrs. J. A. Henderson.

THE BUILDING.

The Home, which is a very neat, comfortable-looking building, is 42x95 feet, of three stories and basement, and is modern in its design. On the first floor are the parlors and dining room, which can be thrown into one, making a convenient place for holding receptions or entertainments. Back of the dining-room is the kitchen. On the left-hand side are offices and the rooms of the Matron, Miss Evans, and four chambers and a bathroom. On the second floor are fifteen sleeping rooms and a sitting-room. On the third floor are sixteen bedrooms. Many of these rooms are not yet furnished, but those which are look neat and home-like. The public school teachers of Los Angeles paid \$70 for furnishing one room, H. W. Mills furnishing another, Mrs. Slauson one, and Mrs. H. H. Boyce, The Woman's Exchange, which is a branch work of the society, will provide a place where everything that women can make may be deposited for sale.

The reception of yesterday from 10 A. M. to 10 P. M. was a very successful event and gives evidence of the kindly feeling which the ladies have for the enterprise.

THE COMING FESTIVAL.

The coming festival, which will take place the second week in April, is announced, and the funds raised will be used in paying off the debts and putting the Home out of debt.

As the Home is open to applicants from all the surrounding districts, the Society feels sure that the interest in it must be widespread, and cordially invite the assistance of all in making both the festival and the Home a grand success. For this end, exhibits from the various sections in Los Angeles county are asked for, and each section is invited to provide one evening's entertainment, the programme to be submitted to the board for approval.

Mrs. R. D. P. Widney, who, associated with Mrs. A. J. Wells, had charge of the floral procession and cantata for the opening evening last year, kindly agree to prepare something of the same nature for this year. The procession will be a feature of each evening. Mr. M. F. Colburn, the successful manager of last year, will again favor the society by attending to the general decoration and distribution of floor space.

There will be no charge for floor space; the frame work of booths will be provided without expense to the exhibitors. All transportation fees will be paid and two exhibitors connected with each booth will be entertained by the ladies of the Society. While welcoming all exhibits from outside counties, it will be impossible for the Society to assume any of the expense connected therewith, though hospitality will be tendered to two exhibitors from each booth.

Contributions of flowers, of all varieties, are solicited, and if carefully labeled their receipt will be acknowledged in the daily papers. Florists and other large growers who desire to enter exhibitors should make early application.
